

GENE'S AQUA PRO

A PICTURE DOESN'T DO IT JUSTICE

Above is the view walking just a few steps from your hotel room to the pier where you catch the dive boat in Cozumel, Mexico. You've got to see it for yourself!

Get Schooled We have several classes this spring! PADI Equipment Specialist will be on **Saturday, February 27 from 10-4**. This course will teach you how to manage basic repairs and adjustments, and give you a better understanding of how your gear works and how to best care for it. Then, PADI Advanced Open Water is coming up on **April 23 & 24**. Through several dives, you'll experience different specialties and find new ways to have fun diving. Finally, PADI Rescue Diver will be on **May 14 & 15**. This certification is mandatory for anyone interested in Dive Master, and will provide you with potentially life-saving knowledge to keep your dives safe and fun!

Searching for Gold This year's Luck of the Irish treasure dive will take place on **Saturday, March 19**. The full rules will be in next month's newsletter, but make sure you are finding your dive buddy for this once-a-year experience - only teams of two are allowed this time around!

See you underwater! -John

MEETING & GREETING

I had the opportunity to attend some dive conferences in Dallas last month. There were dozens of fellow dive shops to visit with and workshops to attend! The picture above is with Sandra, who works at our hotel in Cozumel. If you want to meet Sandra for yourself, make sure you're with us in Mexico next July 10-15.
