

GENE'S AQUA PRO

DIVE BRIEFING, SUN SETTING

We had a great time in Advanced Open Water with the Williams family! The picture above shows our briefing before the night dive. Here's our upcoming schedule:

- Saturday, June 11 and June 25: Dive the islands aboard the Calypso
- June 25 and 26: PADI Advanced Open Water
- July 16: Women's Dive Day

T-1 Month Until Paradise It is all we can do to not pull out our suitcases and run to the airport now - we are just that excited for Cozumel July 10-15. We have a great crew of people on board already and there are just two rooms still available. World class diving, crystal blue waters, delicious food, and fun with friends and family - all that's missing is you.

Open Season for Open Water Congrats to Kacy, Shannon, Brandon, Caleb, Troy and Chris on getting certified last weekend. If you have friends or family interested in becoming certified, now is the time to schedule and hold their spot in a June or July class.

A Sticky Situation We're in over our ears... in stickers with our brand new logo! Add a little bit of scuba to your car, laptop, water bottle, or tank.

See you underwater! -John

LON WISE IS LUCKY!
Congratulations to Lon on collecting enough "gold" left over from our Luck of the Irish event to win a sweatshirt! There is still plenty of bounty in the lake and we would be happy to tell you what area you can have your own treasure hunt in to find it. Swing back by the shop after and trade out a load of dubloons for a new sticker!
