

## DIVERS OF THE CARIBBEAN

This month's group trip to Cozumel, Mexico is **SOLD OUT**. We go every July - if you aren't lucky enough be in the crew this year, start planning for 2018!

**Calypso Calling** Our dive boat, the Calypso, is finally back in beautiful Lake Tenkiller! She makes regular voyages to the islands and is open to all divers for \$25, just call ahead to reserve your seat. First up is a "treasure hunt" to Party Cove on July 5th. Then, women can dive off the boat for free on July 15th in celebration of PADI International Women's Dive Day. The Calypso is also scheduled for regular journeys July 29th and August 12th and 26th. One more Party Cove trip September 5th and she'll "last call" September 9th.

**Fall Preview** The 4th Annual John's Jack-O-Lantern Challenge underwater pumpkin carving contest is slated for October 14th. PADI

Equipment Specialist class is scheduled for November 11th. And our annual group trip to Bonne Terre Mine in Missouri is a go for December 9th and 10th!

**Spotlight on Shearwater** Engineered by divers, for divers: Shearwater makes powerful and reliable dive computers, and Gene's Aqua Pro is proud to be the only Shearwater dealer in Oklahoma.

See you underwater! -John

### NEXT UP: NITROX

*Longer dives, shorter surface intervals - it's PADI's most popular specialty course for a reason. Our next PADI Enriched Air Nitrox Class will be July 8th from 9-12. We're offering the class for \$175, which includes both e-learning and the practical session. Sign up soon to save your spot and complete the homework before we meet!*
