

GOOD OLE' LUCKY LAKE TENKILLER

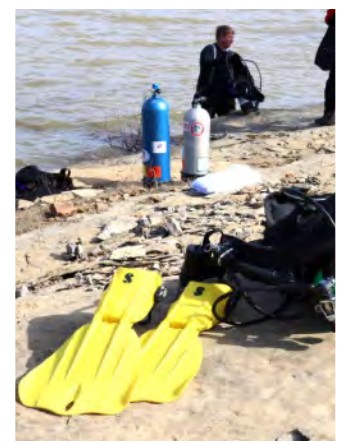

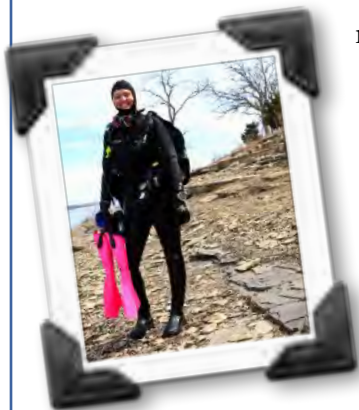

26 divers. 116 pieces of gold retrieved. 82 hotdogs eaten. Thanks to all who "dove by Braille" and congregated with us at the 4th annual Luck of the Irish!

Pick Up, Clean-Up On April 21st, join us for PADI's Project Aware Dive Against Debris. This specialty class is \$40 for first timers - there will be a classroom session followed by a trash clean-up dive. If you already hold the Dive Against Debris c-card, you're welcome to join in for the dive. After collecting debris, we'll sort and log it into PADI's Project Aware database alongside thousands of other divers around the world this Earth Day.

All Call for Cozumel Spots are running out for our next trip to Cozumel, July 8-13. Dive with the people you know in paradise this summer!

Master Scuba Diver If you want to continue your recreational dive education, Master Scuba Diver should be on your bucket list. Five PADI specialty classes + Rescue Diver earn you this elite certification and we have a full menu of classes coming up for you to choose from. Congrats to Stephanie (pictured left) for completing her Master Scuba Diver with the Equipment Specialist class in March!

See you underwater! -John

THE NOVA FAN CLUB

You've probably heard us talk about Scubapro's Seawing Nova fin - because we're a little bit obsessed. They are the perfect blend of stiff and flexible. The durable Marine-grade bungee strap is comfortable on your foot and makes it a breeze to pull your fins on and off. Slip them on and we bet you'll want to join the Nova fan club, too!
