

## SPLASHING INTO THE SUMMER

The air bank is whirring, the phone is ringing and another glorious season at Lake Tenkiller is on the horizon! We can't wait to see you underwater soon.

**Open Water** True to tradition, Memorial weekend will mark the start of our Open Water classes. Gene's is home to the treasured single-weekend course, starting with pool and lecture on Friday and welcoming new divers into the Realm of Neptune, having completed all required dives, on Sunday. If you have friends or family who admire your diver's life, why don't you offer them an invite? Classes are held every weekend through Labor Day.

**Specialty Schedule** Rescue Diver is set for May 19-20. You'll need Emergency First Response training first, but the Rescue class itself is often hailed as the most rewarding and fun continuing education class. Then, Advanced Open Water will be June 9-10. It's a perfect next-step after Open Water certification or if you just want to sharpen your skills in a class setting. To round out that weekend, we'll also teach Night Diver the evenings of June 8 and 9.

**Final Call** Want to dive with the people you know in Cozumel this July 8-13? Call quick to save your spot.

See you underwater! -John

**TRADE IN, TRADE UP**  
*Whether your computer is vintage or you're just looking for an upgrade with the latest technology, we have a deal for you. For the first time ever, Scubapro is offering a trade in program on dive computers. Simply bring in any old computer (any model and any manufacturer!) and receive up to \$150 off a brand new Scubapro computer.*
