

## IN NEED OF SOME VITAMIN SEA?

We're diving beautiful Lake Tenkiller every chance we get and ready to pack for a summer getaway to Cozumel. The water is calling, it's time for your next adventure!

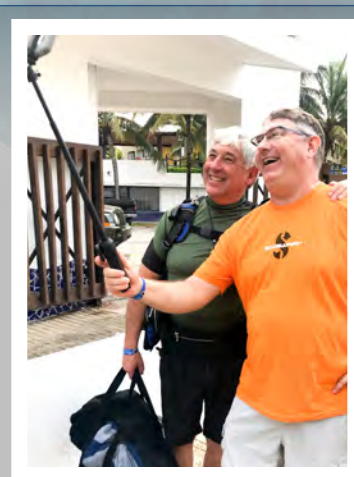

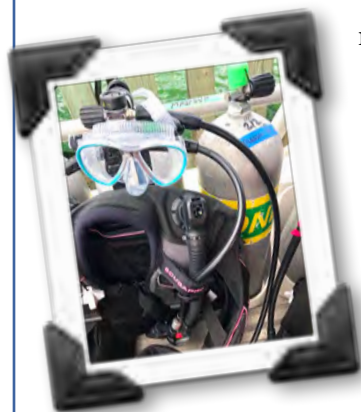

**Travel On the Horizon** Whether you can spring a last minute spot on our Cozumel trip this July 8-13 or are starting to plan vacations for the months to come, we have several opportunities booked to dive new and exciting waters. December 9 and 10 will see our return to Bonne Terre Mine in Missouri, a weekend "drive and dive" to a bucket list destination. And we're excited to announce our trip to Cayman Brac January 26-February 2, 2019.

**Now Banking Nitrox** 32% Nitrox is on tap now at Gene's Aqua Pro! Come get your fill and experience longer dives with shorter surface intervals.

Interested in trying enriched air out for yourself? Our next Nitrox class will be Sunday, June 10.

**Classes & Calypso** There's still time to sign up for Advanced Open Water on June 9 and 10. Add on Night Diver specialty the evenings of June 8 and 9 to make a weekend of it! Our boat, the Calypso, will also set sail for the summer this week. Give us a call to save your seat on her June 16 or June 30 voyages.

See you underwater! -John

### NOT A REGULAR REG

See those smiles? That's the face of someone with the best breathing apparatus on the market. Larry and John both dive the MK25-S600 regulator from Scubapro. Easy breathing is in stock in our showroom. And the Scubapro computer trade-in is still going on! Bring in any computer and receive up to \$150 off a new model from Scubapro.
