

7 DAYS, 17 DIVES, WE'RE BRAC BOUND

Our next island adventure is set. We're headed to Cayman Brac January 26 - February 2, 2019. World class diving and a beachfront resort, you don't want to miss it!

Prime Time Tenkiller The lake is warm with visibility up to 22 feet. We're celebrating with an encore outing of the Calypso on September 8. Last week we had to turn divers away, so call the shop ahead of time to save your seat. We're also running one last Open Water class of the season September 7-9. This is your last chance to get friends or family certified before next May!

September Specialties & October Events Soak up the great lake conditions by adding a c-card to your collection. We have Advanced Open Water scheduled for September 15-16, Emergency First Response (pre-requisite for Rescue Diver) on September 22, and Rescue Diver September 29-30. Save the dates for John's Jack-O-Lantern Challenge on October 14 and another spooky surprise we have up our sleeves on October 20 and 21!

Now Booking Bonne Terre We're hitting the road for our yearly "drive and dive" trip to Bonne Terre Mine, Missouri on December 8-9. This is a bucket list site you don't want to miss!

See you underwater! -John

INTRODUCING THE G2
A decade ago, Scubapro's Galileo changed the game for dive computers. Now, the next generation G2 has arrived. The colorful interface helps highlight the most important information and the customization options make it easy to use and suited to fit your needs. The new lower price of \$1,195 includes the wrist computer and transmitter.
